

## OPERATIONS MANAGER (Fulltime)

Location: Serooskerke, The Netherlands | Position Level: Experienced

Publication date: 14-08-2020

### Position

*Would you like to work on complex worldwide projects in a dynamic team driven to find innovative solutions for the offshore oil and gas and Offshore Wind industry? Then you might be the Operations Manager we are looking for.*

In the role of **Operations Manager** you get the chance to make your mark on our future endeavours! At first you support our tendering department to reach start-up in the Middle East and finally take responsibility for coordinating the base. You plan and coordinate all operations on the logistics base including but not limited to material management, port & traffic operations and maintenance support.

The operations manager for logistics will start in Serooskerke, the Netherlands, and will move the Middle East, once the logistics support base in the Middle East is set up.

### Responsibilities:

- Create a safe working environment for employees by putting in place safety measures to prevent accident and complications that may arise during work;
- Supervise activities of workers to ensure that they are hands-on in order to promote hard-work, which is needed for successful deliveries and completion of production tasks to meet clients' demands and deadlines;
- Supervise all logistics and maintenance of various equipment on the Logistics Support Base
- Ensure that industry standards are met in dealing with clients, to promote rule of law and avoid practices such as smuggling and overloading to avoid accidents which could lead to loss of lives and properties;
- Evaluate logistics and maintenance cost and other expenses and verify that they are not more than the amount charged to clients, to ensure that a positive account balance is left at the end of every transaction;
- Assist with tender phase of the logistics support base.

### Requirements

- Preferably 5-8 years of working experience in a similar position in the Middle East;
- Possession of excellent time management skills to be able to deliver goods as at when due;
- Strong knowledge of logistics management for efficient service delivery;
- Good communication skills to understand the details of clients' deliveries, and pass instructions to team members to carry out without erring;

- Multitasking skills: He/she must be able to do several tasks together without getting confused;
- Attention to detail: He/she must be mindful of even the little details of an assignment;
- Organization skills: The operations manager must be able to plan and organize his/she activities for efficient delivery of goods;
- Good knowledge of the English and Dutch languages both verbal and written;
- Experience in offshore projects in an advantage (oil & gas, wind, drilling);
- Available on short notice.

### The organization

Working for OOS means being part of a growing and dynamic organization. Our dedicated team consists of a mix of young and experienced professionals, who are working together in a lean organization. We continuously invest in the development of our employees by supporting their personal growth.
